

Entry Level Staff Engineer / Scientist

QUASAR Federal Systems is looking for an entry level Staff Engineer / Scientist to join our electromagnetic sensor technology development team.

The responsibilities of this position will include:

- Set-up, calibration, and troubleshooting of laboratory instruments and sensors
- Development and refinement of test protocols
- Support for laboratory and field tests of electromagnetic sensors
- Data processing, analysis, and written reports of results
- Other responsibilities depending on qualifications

A Bachelor's degree in Physics, Electrical Engineering or a related field and 0-2 years of work experience is required. Applicant must be detail oriented and have significant physical science / engineering laboratory or research experience including experience with electronic instrumentation and strong communications skills.

Experience using computers to automate data collection, for example with LabVIEW, and data analysis is desirable.

No previous groundbreaking inventions required, but please share if you've got them.

Applicant must be willing and able to obtain and maintain a DoD security clearance.

Please send resumes to jobs@quasarfs.com.
